

Translational Research News

This is a new edition of the **Newsletter Translational Research** with news about translational research topics, funding possibilities, G-CCC and CCC-N events and more. Our newsletters are also available on the G-CCC [website](#).

Young CCC-N Cancer Scientist Symposium

The second Young CCC-N Cancer Scientist Symposium took place on November 10, 2023 at the MHH in Hannover. The event served as a platform for 100 young scientists to **present their work, exchange ideas, and to broaden their scientific network**. In total, 50 posters were presented, 11 selected talks were given and **Ramona Schulz-Heddergott (UMG)** and **Nico Lachmann (MHH)** gave insights into their career paths and scientific work. We are very much looking forward to the next Symposium in 2024. Young cancer scientists that would like to be part of the **Young CCC-N network** (and mailing list) can send an email to [Alexander Müller](#). Also stay tuned for the Young CCC-N Rocket Chat channel which will be launched soon!

CCC-N Cancer Club

04.12.2023, Siegfried Hauch – Qiagen GmbH

Title: *Matched Analysis of Liquid Biopsy Components in ER+ Her2-Breast Cancer – Is there a Master Analyte?*

Location: Hybrid, HS 04 & [Zoom](#)

18.12.2023, Michael Altenbuchinger – UMG

14.01.2024, Svenja Meierjohann – University Würzburg

19.02.2024, Hana Algül – CCC München, TUM

04.03.2024, Uta Maria Bauer – University Marburg

Upcoming dates also on the [CCC-N website](#)

Other Seminars:

07.12.2023, 11 am; Lecture Hall 45/46, UMG: Spatial Biology by **Franziska Werner** from Akoya Biosciences

Biomedical Research – Eppendorf Award

The Eppendorf Award for Young European Investigators is granted annually to researchers up to 35 years, with an advanced degree, for outstanding contributions to biomedical research in Europe. Prize money: 20.000 EUR

Application Deadline: **January 15, 2024**

More Information: [Eppendorf Website](#)

GÖTTINGEN CAMPUS POSTDOC NETWORK

Run by and for postdoctoral researchers of the Göttingen Campus, the Postdoc Network aims to facilitate communication and information exchange among Postdocs in Göttingen. For **events, mailing lists** and more please visit the [website](#) or contact [Melissa Sollich](#).

ENLIGHT Cancer Days

The Enlight network (European university Network to promote equitable quality of Life, sustainability and Global engagement through Higher education Transformation) is made up of European universities. This **alliance of ten European universities** aims to lay the foundations for an open, integrated European higher education system to **promote both student and staff mobility and resource sharing** Within this framework, representatives from five European Universities (Ghent, Galway, Göttingen, Bordeaux and the Basque Country) took part at the **Enlight Cancer Days** in September 28 and 29 and launched the Enlight Cancer Network.

Feel free to contact us whenever you have topics to be included in this newsletter. If you do not want to receive mail from us in the future, please let us know (petra.runge-wollmann@med.uni-goettingen.de).

G-CCC Translational Research Team | Prof. Günter Schneider, Dr. Petra Runge-Wollmann & Alexander Müller

Interviews with Cancer Researchers

What topics do cancer researchers work on and how exactly does innovative oncological research work? Get insights into current cancer research at the CCC-N, the work and motivation of the research groups, and the benefits of their research for patients.

New Interviews on the CCC-N website:

[Interview with Laura Hinze](#) (Department of Pediatric Hematology and Oncology, MHH)

[Interview with Andreas Fischer](#) (Department of Clinical Chemistry, UMG)

UMGTransfer

UMGTransfer and its transfer network **supports all UMG employees in transferring their research results or inventions to (clinical) application and commercial exploitation**. You are welcome to get in contact even in the early phases of your research projects in order to develop a long-term transfer and financing strategy.

Contact UMGTransfer: [Alexander Berg](#), (Head) or [Marieke Ahlborn](#) (Project Manager)

The Biotech Industry Baselines and Beyond

The **new elective module in the Master Program Molecular Medicine** will start in summer 2024. Topics like drug development, pre-clinical stages, principles in pharmacology, toxicology, bio analytics, clinical development and commercialization will be part of the program. The program consists of 6 seminars which will be held in English. An industry excursion and a final pitch event will also be included.

Details: please see the [flyer](#) or contact [Liat Nissimov-Brueck](#)
